

薛宇桓

Yu-Huan Hsueh

Education

2005 ~ 2012, MD, Taipei medical university

2018 ~ 2024, PhD, National Yang Ming Chiao Tung University

Career

2014 ~ 2019, Resident, Orthopedic department, EDA hospital, I-shou university, Kaohsiung, Taiwan

2019 ~ 2025-08, Visiting Staff, Orthopedic department, EDA hospital, I-shou university, Kaohsiung, Taiwan

2025-09 ~, Deputy Director, Orthopedic department, EDA hospital, I-shou university, Kaohsiung, Taiwan

Membership and professional societies

Taiwan Society for Surgery of the Hand (TSSH)

Taiwan Orthopaedic Trauma Association (TOTA)

Taiwan Orthopaedic Association (TOA)

Publications

1. Hsueh, Y. H., Chen, K. P., Buddhakosai, W., Le, P. N., Hsiung, Y. W., Tu, Y. Y., ... & Tu, Y. K. (2024). Secretome of the Olfactory Ensheathing Cells Influences the Behavior of Neural Stem Cells. *International Journal of Molecular Sciences*, 26(1), 281.
2. Hsueh, Y. H., Li, Y. W., Chen, K. P., Chen, W. L., & Tu, Y. K. (2024). Nerve bypass surgery for spinal cord reconstruction. *World Neurosurgery*.
3. Chiew, M. Y., Wang, E., Lan, K. C., Lin, Y. R., Hsueh, Y. H., Tu, Y. K., ... & Chen, W. L. (2024). Improving iPSC Differentiation Using a Nanodot Platform. *ACS Applied Materials & Interfaces*.
4. Li, Y. W., Hsueh, Y. H., Tu, Y. Y., & Tu, Y. K. (2024). Surgical reconstructions for adult brachial plexus injuries. Part II: Treatments for total arm type. *Injury*, 55(2), 111012.
5. Hsueh, Y. H., Wu, C. H., & Tu, Y. K. (2023). Letter regarding "The volar intra-articular extended window approach for intra-articular distal radius fractures". *Journal of Hand Surgery*, 48(8), e5.

6. Li, Y. W., Tu, Y. K., & Hsueh, Y. H. (2023). Prespinal Versus Conventional Hemicentralateral C7 Nerve Transfer in the Treatment of Total Brachial Plexus Roots Avulsion Injuries: A Retrospective Study With a Minimum Follow-Up Period of 4 Years. *The Journal of Hand Surgery*, 48(11), 1175-e1.
7. Hsueh, Y. H., Buddhakosai, W., Le, P. N., Tu, Y. Y., Huang, H. C., Lu, H. E., ... & Tu, Y. K. (2023). Therapeutic effect of induced pluripotent stem cell-derived extracellular vesicles in an in vitro and in vivo osteoarthritis model. *Journal of Orthopaedic Translation*, 38, 141-155.
8. Chen, R. Y., Chang, H. S., Huang, H. C., Hsueh, Y. H., Tu, Y. K., & Lee, K. Z. (2023). Comorbidity of cardiorespiratory and locomotor dysfunction following cervical spinal cord injury in the rat. *Journal of Applied Physiology*, 135(6), 1268-1283.
9. Ma, C. H., Hsueh, Y. H., Wu, C. H., Yen, C. Y., & Tu, Y. K. (2022). Does an internal joint stabilizer and standardized protocol prevent recurrent instability in complex persistent elbow instability?. *Clinical Orthopaedics and Related Research*, 480(7), 1354-1370.
10. Tu, Y. K., Hsueh, Y. H., & Huang, H. C. (2021). Human Olfactory Ensheathing Cell-derived Extracellular Vesicles: miRNA Profile and Neuroprotective Effect. *Current Neurovascular Research*, 18(4), 395.
11. Tu, Y. K., & Hsueh, Y. H. (2020). Extracellular vesicles isolated from human olfactory ensheathing cells enhance the viability of neural progenitor cells. *Neurological research*, 1-9.
12. Hsueh, Y. H., & Tu, Y. K. (2020). Surgical reconstructions for adult brachial plexus injuries. Part I: Treatments for combined C5 and C6 injuries, with or without C7 injuries. *Injury*.
